

Holiday homework for Miss Richardson's Psych class

Below is a list of all the tasks required to be completed for Monday afternoon first day back. Don't forget we are going to be working on an ERA (SAC) from Wednesday onwards so you need to be on the ball and all up to date with the readings and activities.

Readings: textbook 236-240
Revision Q's: L.A 7.2
Key terms in Glossary

Readings: textbook 241-244
Revision Q's: L.A 7.4 & 7.5
Key terms in Glossary

Readings: textbook 245-251
Revision Q's: L.A 7.8, 7.10
Key terms in Glossary

ERA: Estimating speed of neural transmission (p.250) - Working on drafts of

- An introduction (a hypothesis, aim of research, past research, key terms (defined))
- Results: Look at pages 50-55 and work out the best way to represent the results from the trials. It needs to be in a graph. Please attempt this.
- Method: this section needs to be completed also. Remembering that the participants were 20 year 11 Psychology students. Write out the procedure (so what we did outside, including how we collated results). Remember it all needs to be in the third person and past tense.

UTILISE the ERA guideline that you have from class and do the best you can. It doesn't have to be perfect you just need to give it a good attempt.

Any problems or questions do email me, but please be mindful that it is holidays and it may take me a couple of days to reply. Do not leave work till weekend before school goes back as you won't get through it.

HAVE A SAFE AND ENJOYABLE HOLIDAYS see you in term 4!
